SUBJECT: TEGL 17-07—ENCOURAGING TECHNOLOGY-BASED LEARNING

The U.S. Department of Labor Employment and Training Administration has issued a Training and Employment Guidance Letter (TEGL) [17-07](#), dated January 3, 2008. The purpose of this TEGL is to encourage the use of technology-based learning in order to increase access to learning opportunities for workforce investment system customers within existing statutory and regulatory flexibility of various Employment and Training Administration programs. This guidance addresses issues that limit the greater use of technology-based methods for training in the workforce investment system, including concerns about training content, physical class attendance, time-in-training requirements, technological access, and accessibility and accommodations for individuals with disabilities.

If you have any questions, please contact your [Regional Advisor](#) at (916) 654-7799.

/S/ BILL BURKE
Assistant Deputy Director
Workforce Services Branch

/S/ BOB HERMSMEIER
